

## So what makes Fred's Photography different?

- **Simple...** You legally own **every picture!** You are paying us to do a job, so rightfully all the images we take should belong to you!
- You get all of your full-sized original colour digital images of your wedding, colour and light corrected.
- Various wedding packages starting from \$750
- **Free Engagement shoot** with all packages including printable Images.

**The ultimate memory in years to come** - We bring art to a wedding, creating and capturing memories and emotions... after the party has finished, the cake has been eaten, and the dress is in a box, the only thing left is the photography. I want our brides and grooms to look at their wedding pictures in years to come and still be able to feel the emotions they felt on their wedding day.

## No chance of a re-shoot, weddings are a one time event! -

Wedding photography is the most challenging type of photography, it is not easy, you need a lot of experience, we cannot have a bad day – there is no chance of a re-shoot

**Right place... Right time...** - To capture those moments you need a lot of past experience to

know and understand the natural flow of a wedding. Most weddings are similar but often

run very differently. We have shot hundreds of weddings, in the 40 years we have been in business.

**What's the cost to buy the original digital files?** - Your original digital files, which are all in colour, are already **included** in the prices advertised on this website/pricelist. We don't want to keep your photographs, you will have hired us to capture your photographs, not keep them. All our couples receive all the photographic images we capture and copied to a DVD.

## Our Wedding Photography Packages

If you only ever read one page of our website, make sure it is this one as it contains some important information from which you can accurately compare photographers wedding prices and packages.

Fred's Photography provides full Copyright to our bride and grooms without any additional cost. All our packages include every photo we take! (except for the ones with closed eyes etc.)

All of the images provided are the full resolution, colour and light corrected and will not be down sized in anyway!

Listed below are our most popular wedding packages. Just give us a call at 519-842-9554 or send us an email [fredsphotography@rogers.com](mailto:fredsphotography@rogers.com)

*Booking deposit \$250, half before the wedding and balance payable when you receive your DVD.*

**Wedding albums**

When booking a photographer please consider his/her overall cost. We have chosen to separate the cost of the photographic work and the cost of the albums. We do this because some couples opt to have no album at all, as they have the original images from us and complete the album task themselves. Costing it this way enables us to be absolutely transparent

with our prices, ensuring you have no escalating or hidden costs after your special day.

We can supply virtually any wedding album that is available Worldwide. Many bride and grooms design these themselves. If you prefer us to do the design job for you, we can quote a price to complete this for you.

**Finished Portraits**

If you would like us to print some of your photographs that are completely retouched in addition to light exposure and colour correctness we would be pleased to do so. For the cost go to our reorder page <http://www.fredsphoto.on.ca/EN/reorder.php>

**DVD Information**

The images on the DVD are all printable however in most cases you will need to first put the images on your computer and then transfer the ones you want printed to a memory stick or CD.

**New "Wedding Registration Book.".....  
\$150.00**

This is a unique book with photographs from your engagement photographs and lots of room for the wedding guests to sign. Ask to see a sample.

**Recommend a wedding and get rewarded.**

Please call 519-842-9554 or email us for more information.
